BENTLEIGH EAST

- **Bentleigh East's Commercial and Mixed Use zones have no height limits and Council will not start to address this until 2021.**
- **Bentleigh East has no train or tram access (bus only), but is being threatened by applications for large developments, including proposals for 33 apartments in 4 storeys**
- **The local residents group has continually sought support from Council but no effective change has happened.**
- **The only way to succeed in keeping our neighbourhood character and to compel the authorities to change this unreasonable and redevelopment is by uniting the forces with the representatives of all the suburbs. The challenge we all face is much greater than previously was thought, proof of which was evident in this Gathering**
