

13. How happy do you think the residents of Glen Eira are with the current level of development?

Majority not happy however its not just the amount its how it looks and the poor quality of design + build.

14. Some zoning types eg Activity Centre Zoning (ACZ) can result in no later appeal-rights for residents. Do you think this is fair on residents?

No not fair - We need to elect councillors that have a backbone and truly represent the community and what it wants.

15. Do we need tighter planning controls and added scrutiny to protect residents in or nearby to mixed-use zones?

Absolutely yes - its too late once it gets to appeal stage at VCAT. It must have more done at an earlier stage.

16. What changes would you like to see implemented by the Glen Eira City Council? Eg planning scheme, local laws, meeting procedures, other changes

There are a lot of changes required. We must truly give the community a better governance and representation. Planning needs more attention at council level. Height limits must be set to community expectation. More clarity and honesty at council meetings. Residents must have much more say.
